✉ [hardiksiloiya@cse.iitb.ac.in](mailto:hardiksiloiya@cse.iitb.ac.in)

☎ +91 99692 07651

My research interests include Algorithms and Complexities, Games, Operating Systems, Distributed and Cloud Computing, and Implementation of Databases. Currently, I am working on topics including fault-tolerance in Distributed systems and designing efficient algorithms for Combinatorial Games.

## 🎓 EDUCATION

- 2019 – 2023 **Indian Institute of Technology Bombay**  
B.Tech in Computer Science and Engineering  
GPA : 8.36/10
- 2017 – 2019 **Delhi Public School**  
High School Diploma  
GPA : 96.6%

## 📖 RESEARCH EXPERIENCE

- GRUNDY NUMBERS FOR TWO LEVEL POSET GAMES** AUTUMN 2022 (ONGOING)  
B.Tech Thesis, Professor Rohit Gurjar  
➤ Researching on developing efficient algorithms for computing Grundy Numbers for general two level Poset games and adapting them to solve similar impartial games
- EXACT ALGORITHMS FOR 5-GRAPH COLORING** AUTUMN 2022 (ONGOING)  
R&D Project, Professor Sundar Vishwanathan  
➤ Researching on designing exact algorithms which work efficiently on NP-hard problem of 5-coloring in graphs
- SELF-STABILIZING ALGORITHM FOR GRID ARCHITECTURE** SPRING 2022  
R&D Project, Professor Rushikesh K. Joshi  
➤ Developed an algorithm for stabilizing a distributed system in the form of a grid network, achieving fault recovery from arbitrary state and converging in quadratic order using mutual exclusion
- ANIMAL DETECTION IN VIDEOS** SUMMER 2021  
Summer Undergraduate Research Project, Professor Prabhu Ramachandran  
➤ Built an object detection framework for accurate detection of animal species in videos  
➤ Implemented the feature of adding multiple classes to an existing model, with only retraining the model on a subset of the previous data using Active Learning

## 📖 PUBLICATIONS

- **Hardik Siloiya**, Rushikesh K. Joshi, "A Self-Stabilizing Mutual Exclusion Algorithm for Elevator-embedding in Grid Architecture" in preparation.

## 💼 INTERNSHIPS

- |                       |   |
|-----------------------|---|
| May 2022<br>July 2022 | <b>Wells Fargo, REMOTE, India</b><br><b>Software Engineering Intern</b><br>➤ Deployed a real time emotion detection chatbot obtaining an accuracy of 95% using fine-tuning the BERT model<br>➤ Implemented a low-latency suggestion generator in the chatbot using heuristic algorithms on queries and ML models to give real-time suggestions to executives from a dictionary<br>➤ Implemented a feedback loop allowing customers to rate messages, facilitating active learning of neural network |
| May 2021<br>July 2021 | <b>MindWorks Global, REMOTE, India</b><br>➤ Implemented a Faster RCNN based object detection framework via Detectron2, and fine-tuned it for accurate detection of headline and body in images of news articles, obtaining a mAP of 90%<br>➤ Used the Tesseract Optical Character Recognition model to obtain the textual information from the objects detected by Faster RCNN<br>➤ Used HTML heuristics to accurately get the dates of the web articles from their links                           |

## </> KEY PROJECTS

Spring 2022	<p><b>SCLP : Compiler for C-like language, COMPILERS LAB, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Developed a <b>compiler and interpreter</b> for subset of C supporting functions, scope levels and control sequences</li><li>&gt; Used <b>Lex</b> for tokenizing, <b>Yacc</b> for parsing and <b>constructed ASTs</b> to generate MIPS assembly code</li></ul> <p>Compilers Automata Theory Yacc Lex C</p>
Autumn 2020	<p><b>Online Development Environment (ODE) , SOFTWARE SYSTEMS LAB, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Developed an <b>online development platform</b> with an <b>isolated environment</b> supporting User Registration and Code saving APIs using a <b>code directory</b> storage system</li><li>&gt; Used <b>Django and SQL databases</b> for efficient and secure management of user data</li><li>&gt; Implemented <b>compiler support</b> for <b>C++, python, and Java</b> including their library support</li><li>&gt; : <a href="https://github.com/hardiksiloia/405-Found">github.com/hardiksiloia/405-Found</a></li></ul> <p>Software Development Online development File storage Django Python</p>
Spring 2021	<p><b>Multi Cycle Processor, IITB-Proc, DIGITAL LOGIC DESIGN LAB, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Designed a <b>16-bit architecture</b>, having a <b>point-to-point communication infrastructure</b> in VHDL</li><li>&gt; Implemented an architecture that supports <b>predicated instruction execution</b>, <b>ALU operations</b>, and <b>multiple load and store executions</b></li><li>&gt; : <a href="https://github.com/hardiksiloia/IITB-Proc">github.com/hardiksiloia/IITB-Proc</a></li></ul> <p>Virtual Processor ALU 16-bit architecture</p>
Spring 2022	<p><b>Covid Analyzer, DATABASE SYSTEMS LAB, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Developed a react application which allows users to <b>view and compare</b> various <b>covid statistics</b> from countries around the world by querying data from a <b>time series database</b> using <b>influxQL</b></li><li>&gt; Implemented <b>user groups</b> giving access to certain users to add data into the database and global data</li><li>&gt; : <a href="https://github.com/hardiksiloia/Covid_analyzer">github.com/hardiksiloia/Covid_analyzer</a></li></ul> <p>Databases influx user groups data visualization</p>
Autumn 2020	<p><b>Quad Tree, DATA STRUCTURES LAB, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Implemented the <b>quad tree</b> data structure used for <b>efficiently storing sparse binary matrices</b> allowing compression of such images and matrices with functions to perform <b>binary operations</b> such as XOR, AND, OR</li><li>&gt; : <a href="https://github.com/hardiksiloia/Quad-Tree">github.com/hardiksiloia/Quad-Tree</a></li></ul> <p>Data Structures C++</p>
Autumn 2021	<p><b>Image Splicing Detection, DIGITAL IMAGE PROCESSING, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Implemented a technique to <b>identify tampered images</b> leveraging inconsistencies in <b>local noise variance</b></li><li>&gt; : <a href="https://github.com/hardiksiloia/Image-Splicing-Detection">github.com/hardiksiloia/Image-Splicing-Detection</a></li></ul> <p>Image Processing Statistical inference</p>
Autumn 2021	<p><b>Reinforcement Learning, FOUNDATIONS OF INTELLIGENT AGENTS, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Implemented algorithms for sampling the arms of <b>stochastic multi-armed bandit</b> including UCB and KL-UCB</li><li>&gt; Implemented a <b>MDP solver</b> which finds the optimal policy from any state for <b>Anti-Tic-Tac-toe</b></li></ul> <p>Reinforcement Learning Multi-armed bandits MDP solver Python</p>
Summer 2021	<p><b>Data Science, SUMMER OF SCIENCE   MATHS &amp; PHYSICS CLUB, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Undertook a detailed study on the various <b>Machine Learning algorithms</b> and investigated various practices for <b>extracting information from structured and unstructured data</b></li><li>&gt; Drafted a report on various Machine Learning algorithms for Data science and methods for data manipulation, and gave a presentation on <b>Kernel Methods</b></li><li>&gt; : <a href="https://github.com/hardiksiloia/SoS-DataScience">github.com/hardiksiloia/SoS-DataScience</a></li></ul> <p>Machine Learning Statistics</p>
Summer 2021	<p><b>Generative Models, SELF PROJECT, IIT Bombay</b></p> <ul style="list-style-type: none"><li>&gt; Implemented several generative models including <b>RNN</b> and <b>MuseGAN</b> for music generation, Chatbot using a <b>LSTM network</b>, <b>CycleGANs</b> for image translation, and <b>Variational Autoencoder</b> for image compression and restoration</li><li>&gt; : <a href="https://github.com/hardiksiloia/GANs">github.com/hardiksiloia/GANs</a></li></ul> <p>Machine Learning GANs Python</p>

## ACADEMIC ACHIEVEMENTS

---

- 2019 Secured **99.8% percentile** in **JEE Main** out of **1.4 million** candidates
- 2019 Secured **99.1% percentile** in **JEE Advanced (IIT-JEE)** out of **240,000** candidates
- 2019 Received Certificate of Merit for being among the **top 0.1%** candidates in **Chemistry** and **Computer Science** in the **All India Senior School Certificate Examination (AISSCE)**
- 2019 Awarded Certificate of Merit for outstanding performance and for obtaining **Grade 'A1'** in all five subjects in **AISSCE**
- 2018 Secured **State Rank 11** and **International Rank 207** in **International Science Olympiad** conducted by SOF
- 2017 Secured **State Rank 32** and **International Rank 465** in **International Mathematics Olympiad** conducted by SOF

## TECHNICAL SKILLS

---

PROGRAMMING LANGUAGES	C++, Python, C, Bash, Java, Sed, Awk, BASIC
WEB DEVELOPMENT	HTML5, CSS, JavaScript, Django
SOFTWARE SKILLS	Git, MATLAB, $\text{\LaTeX}$ , MySQL, AutoCAD, SolidWorks, Android Studio

## KEY COURSES UNDERTAKEN

---

Computer Science	Database Systems and Lab, Automata Theory, Compilers and Lab, Discrete Structures, Computer Architecture and Lab, Operating Systems and Lab, Artificial Intelligence & Machine Learning and Lab, Software Systems Lab, Design and Analysis of Algorithms, Logic for Computer Science, Computer Networks and Lab
------------------	---

Mathematics	Calculus, Linear Algebra, Differential Equations, Numerical Analysis
-------------	--

## EXTRA CURRICULAR

---

- > Secured **City Rank 4** in the **Talent Hunt Exam** conducted by Career-Launcher
- > Participated in the **Social Service Camp** conducted by Ryan Group of Institutions held at Daman
- > Participated in the **International Children's Festival of Performing Arts** consisting of participants from over 45 countries.
- > Successfully completed one year of **Guitar training** under **National Sports Organization**
- > Received a special mention in **Video-Making Competition** organised by Culturals, IIT Bombay
- > Hobbies : **Competitive Programming**, playing guitar, **E-Sports**, **football** and watching **anime**
